Davis Yoel Armas Ayala

Full Stack Engineer & Senior Data Miner

Canary Islands, Spain - davis.armas.ayala@gmail.com - (+34) 626041736

Professional Summary

As a dedicated software engineer, my passion for technology drives my continual pursuit of learning and mastery. I thrive on quickly adapting to new technologies and have a strong set of soft skills that have consistently fostered positive work environments. My technical and interpersonal abilities enable me to lead and innovate within any team.

Skills

Front-end: JavaScript, Angular, CSS, HTML, React, Django, RxJS, Styled-Components, RTK Query, NextJS, SASS, Puppeteer, React testing library, Jest
Back-end: Python, Node.js, Java, C++, C, Scrapy, MySQL, PostgreSQL, Flask, MongoDB, Express.js, NestJS, Go, Mongoose, Jest, Bun
Tools & Technologies: Git, GitHub, GH Actions, AWS, Linux, Unix, Docker, OpenAI, TypeScript, Agile, Jira, Notion, CircleCI

Work Experience

Technical Lead Engineer
Hainok, Barcelona, Spain (07/2024 – Current)

- Lead Technical Teams. Oversee a cross-functional team of engineers, guiding them through the software development lifecycle to deliver high-quality products.
- Lead Technical Teams. Oversee a cross-functional team of engineers, guiding them through the software development lifecycle to deliver high-quality products.
- Product Management Collaboration. Work closely with the CEOs and marketing team to plan and execute the product roadmap, ensuring alignment with business objectives.
- Strategic Planning. Contribute to strategic decision-making processes by providing technical insights and feasibility assessments.
- Architecture & Design. Direct the design and architecture of software solutions, ensuring scalability and performance.
- Stakeholder Engagement. Serve as the primary technical liaison between engineering teams and stakeholders, facilitating clear communication and expectation management.
- Mentorship. Mentor and support team members, fostering a culture of continuous learning and professional development.
- Process Improvement. Implement best practices in agile methodologies, code reviews, and project management to enhance team efficiency.
- Cross-Department Collaboration. Coordinate with marketing and other departments to align technical capabilities with market needs and promotional strategies.

Full Stack Engineer
TryHackMe (THM), London, United Kingdom (04/2022 – 07/224)

- Modernised backend infrastructure to enhance performance and scalability.
- Maintained and developed legacy endpoints using Node.js and Express.
- Led the migration of the frontend client to a high-performance solution.
- Developed new backend architecture with Node.js and TypeScript.
- Constructed and maintained frontend architecture using React technologies.
- Led developers across various projects and squads.
- Mentored and tutored junior and mid-level developers.
- Collaborated with stakeholders to find, discuss, and execute solutions for B2B issues.
- Worked in an experimental flow for B2C-2B growth.

Full Stack Developer

Proptex, Barcelona, Spain (11/2021 – 04/2022)

- Developed backend endpoints and domain features for a real estate app.
- Created and deployed microservices with Kubernetes and Redis.
- Engineered frontend solutions with Angular and Pug.

Junior Frontend Developer
InAtlas (Intelligent Atlas), Barcelona, Spain (02/2020 – 09/2021)

- Maintained and created the company's frontend code and product.
- Fixed bugs and created new functionalities and library components.
- Participated in architecting the migration of legacy code to modern technologies and patterns.

Data Miner
InAtlas (Intelligent Atlas), Barcelona, Spain (10/2016 – 09/2021)

- Mined various web pages, APIs, and server resources.
- Managed all architecture from code to databases and servers.
- Processed and analysed data to generate indicators and insights for product solutions.
- Maintained a consumer-like API.

Education

Computer Engineer
Universitat de Barcelona (UB), Barcelona, Spain (08/2013 – 2017)

Certifications

- **Epic React - Total TypeScript**: Kent C. Dodds & Matt Pocock (2023 – 2024)
- **CSS3 & HTML5 Course, JavaScript Course, Angular Course**: Udemy (2019 – 2021)
